

OUR SERVICES

CONSTRUCTION OF PRODUCTION FACILITIES

From bare dirt to start up, we know our clients want a trouble-free facility built, with a continual focus on quality. Evergreen has the experience to build your facility from start to finish.

ROUSTABOUT

Crews are equipped with heavy duty, fully rigged 1/2- to 2-ton trucks and the necessary equipment to serve all your oilfield needs.

PAINTING

Whether it is painting, structural and process piping at the fabrication yard, or doing a full field level blast and coat of an existing asset, Evergreen has the equipment and expertise to deliver a professional product.

INSTALLATION

Installation of production equipment for the customers.

FABRICATION

Whether you need a custom piping solution or a facility built to prints, we can provide quality trades people with great attitudes and top level equipment to complete the project.

MAINTENANCE

No matter the issue, we can help return your assets to production and keep them in production.
